BOOK ONLINE TO ATTEND EVENTS**

**TEAMS: 25 MAR**

**5-6PM.**

**DPA TOUR**

**20 APR**

**2.30-4PM.**

## **HAVE YOUR SAY...**

### **On our broad and balanced curriculum**

Our curriculum is inspiring, relevant, broad and balanced, and offers excellence in all subject areas to challenge each pupil.

Our schools have high expectations for our pupils' education and for their futures. The National Curriculum is used as the baseline, offering excellence in all subject areas, to challenge pupils. The core subjects – English, Maths, Science – are given sufficient time to enable pupils to be supported and challenged.

Additional curriculum time is possible due to the length of the regular school day (8:40am – 3.30pm). The longer day ensures that important and enriching subjects, such as: Languages, PE, Music, Design Technology and Art, are given the time they need.

### **On how we support and enrich**

We offer an exciting range of extra-curricular activities, tailored to meet the needs of children at different stages of their school lives.

Our school is inclusive and designed to complement modern family life. We aim to offer quality, low-cost, wrap-around care and enrichment clubs, so that the parents and children can access the school from 8:00am until 6:00pm, each school day.

### **On how we are trusted to grow**

Valley Park is the fifth school to join the Omnia Learning Trust ;a community of ambitious, exceptional schools that grow happy, confident, balanced children.

Twickenham and Didcot Primary Academies were both judged 'Outstanding' by Ofsted in June 2018 and 2019 and both held this judgement upon the next inspections in December 2024. Wantage Primary Academy was judged 'Outstanding' by Ofsted in May 2023
